

September 1, 2016

To whom it may concern:

Esa Alotaib, University of Manchester, UK) submitted a conference paper "Ergodic Secrecy Capacity Analysis for Cooperative Communication with Relay Selection Under Non-Identical Distribution" to the IEEE International Conference on Communications (IEEE ICC 2016) which took place May 23-27, 2016 in Kuala Lumpur, Malaysia.

Esa attended the conference where he presented the paper in the Physical Layer Security Session on Thursday, May 26, 2016 (16:00-17:30).

If you need any further information regarding this please contact me directly.

Sincerely,
