Dear Reem,

Volunteering at Pretty Muddy - YOU DID IT!

Thank you so much for volunteering at Pretty Muddy Belfast, Ormeau Park on 1st September 2018. You were amazing and we really couldn't have delivered the event without you.

At Pretty Muddy Belfast 2018 we welcomed 1600 participants, fundraising a grand total of £61,502 which has been donated entirely to the lifesaving work of Cancer Research UK.

With the money fundraised we can continue our life saving research to help bring forward the day when all cancers are cured. Here are just some of the things we've achieved already thanks to the support of volunteers like you:

- Our scientists helped establish crucial steps in the development of the breast cancer drug Herceptin. This is now a gold standard of care for certain types of breast cancer. Today, almost 8 out of 10 women survive breast cancer for 10 years or more because of cancer drugs like Herceptin.
- Our research has helped accelerate survival in children's cancers. In the 1970s more than a third of children with cancer survived their disease. Today, three quarters of children are surviving cancer.

We hope that you had a day to remember and we are so grateful for your support. THIS IS BEATING CANCER.

Thank you,

The Race for Life Team
Cancer Research UK
